

ZACH LOEKS

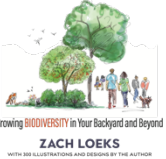

## SPEAKING AND WORKSHOPS

2021/22 TOPICS

\*Workshops are available as 1.5 hour Keynotes or, half to full-day workshops.

\*\*Multiple workshops available as 2-3 day Intensives. \*\*\*Custom workshops on request.

### THE EDIBLE ECOSYSTEM SOLUTION

## 2021 Keynote: The Edible Ecosystem Solution

*Following the material of Zach's new book: learn about human origins in biodiversity, and the immense benefits ecosystems can offer, from improved wellness, education and food security to climate resilience and landscape profitability. This workshop also outlines a model for landscape transition and societal transformation through stewardship of biodiverse micro landscapes.*

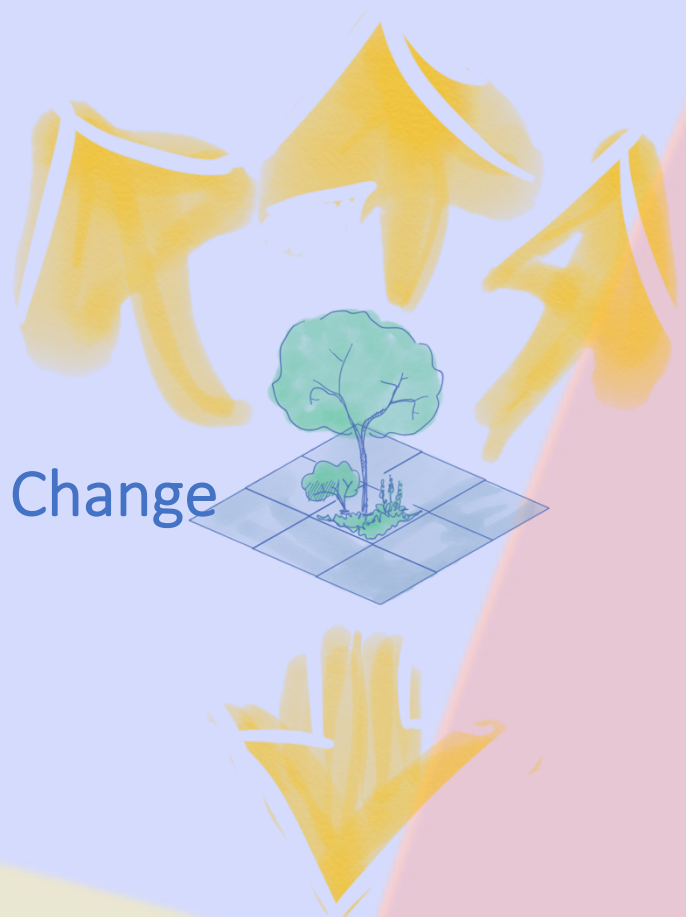

### Additional Speaking Topics:

## Edible Landscape Design

- *Edible Ecosystem Design*
- *Planting an Edible Hedge*
- *Modular Land Management*
- *Regenerating Urban Forests*
- *Small Tools & Tractors*

## Sustainability and Climate Change

- *Ecosystem Restoration for Flood Mitigation*
- *Ecosystem Solutions for Climate Change*
- *Landscape Design for Endangered Species*
- *Building a Biodiversity Hot Spot*
- *Northern Food Security*

# Heath, Wellness & Education

- *School Garden Design*
- *Eco-education Site 101*
- *The Edible Bike Lane*
- *Human Health and Ecosystem Design*
- *Space, Place and Wellness*

# Agriculture & Gardening

- *The Permabed System for Ecosystem Gardening*
- *The Suburban Micro Farm*
- *Permaculture Market Gardening*
- *Organic Garlic*
- *Grow the Best Carrots*
- *Hugelkultur DIY*
- *Diversifying Your Farm Business*
- *The Future of Farming*

## SPEAKER BIO

*Zach is an educator, designer and grower who specializes in Edible Ecosystem Design. He consults widely with homes, farms, colleges, schools and municipalities across Canada and the United States, and through many biomes from Guatemala and South Africa to the Yukon and Mongolia.*

*Zach manages an award-winning farm with diversified food forest products, heirloom garlic, and a hardy tree nursery. His innovations have won three provincial awards and are featured in his first book: *The Permaculture Market Garden*.*

*Zach is the director of the Ecosystem Solution Institute, which is dedicated to the education, propagation and inspiration of ecosystem solutions for land use transition. The Institute oversees pathbreaking education sites, including an edible biodiversity conservation area near Ottawa, Ontario and a suburban food forest in Winnipeg, Manitoba. Zach is passionate about how small actions - strategically linked - can make big change. His inspiring and empowering vision is presented in his latest book: *The Edible Ecosystem Solution*.*
