Site Visit + Environmental Assessment + Visioning.
Research + Action Sheets + Follow-up Phone Consult.
Includes Travel within 2-hour roundtrip of Cobden, ON or
Winnipeg, Manitoba. *Inquire, package based on Property
Size.

Landscape and Systems Design

We create specialized Layout Maps and System Designs for any
site and project outcome. Property/Site Layout Map + THREE
Eco-system Designs (Irrigation + Planting Plan + Infrastructure,
etc.) *Inquire, package based on Property Size.

Land Preparation & Eco-system Planting

We build unique Edible and Restoration Ecosystems using exclu-
sive methods developed by The Ecosystem Solution Institute.
These include: Food Forests, Orchards, Market Gardens, Prairie
Restoration, Woodland Restorations, Riparian Buffers, Upland
Shelter Belts, Living Fences, Edible Hedges, Whole Edible Proper-
ties and more. *Estimate provided through Site Visit and Design.

Turn your Project into an Eco-education Site

We turn any project into a unique Eco-education Site. This might
include, but is not limited to, Custom Plant Name Tags + Mini
Educational Signage + Interpretive Panels + Custom eBooklets,
Custom Curriculum + Flyers + Marketing Material + Website
Design and Project Branding. ***Working with Colleges, Schools,
Museums, Small Businesses, Farms, Cities, Community Gardens,
and more. *Estimate provided through Phone Consultation.
